

Cihangir Alperen Tokgöz

INDUSTRIAL ENGINEERING STUDENT

cihanggir@gmail.com • +90 (553) 856 5617 • [linkedin.com/in/cihangir-alperen-tokgoz-925695156](https://www.linkedin.com/in/cihangir-alperen-tokgoz-925695156) • Ankara, Türkiye

PROFILE

Motivated and detail-oriented Industrial Engineering student at Hacettepe University with hands-on experience in aerospace quality control (TUSAŞ) and defense industry R&D (TÜBİTAK SAGE). Skilled in operations research, production planning, lean manufacturing, quality management, and database management. Strong analytical and problem-solving skills combined with effective communication and teamwork abilities. Highly motivated to apply engineering methods to optimize manufacturing processes and contribute to the advancement of aerospace and defense industries.

EDUCATION

- **Hacettepe University, Industrial Engineering**, Bachelor's degree, GPA:3.13
Sep 2021 – Present (Ankara, Türkiye)
- **Aydem Science High School (Fen Lisesi)**
(Denizli, Türkiye)

EXPERIENCE

TÜBİTAK Defense Industry Research and Development Institute (SAGE), Business Development & Marketing Intern

August 2025 – September 2025 (Ankara, Türkiye)

- Conducted competitive benchmarking & SWOT for the KUZGUN guided missile family; compiled data from open sources into decision-ready comparison tables.
- Built market sizing & positioning assumptions and proposed value/cost and platform-integration oriented recommendations.
- Prepared executive briefings and visualized comparison matrices; delivered findings in TR/EN short reports.
- Improved documentation & traceability to reduce rework and support team coordination.

Turkish Aerospace Industries (TAI), Quality Control Aerospace Structures Intern

June 2025 – July 2025 (Ankara, Türkiye)

- Observed and supported aerospace structural quality control processes, including AS9100/AS9102 standards and First Article Inspection (FAI) documentation.
- Gained hands-on experience with nonconformance reporting (NCR) and corrective action procedures within aerospace manufacturing.
- Assisted in reviewing traceability documentation and quality metrics for aerostructure components.
- Attended technical briefings and training sessions on aerospace products, quality standards, and inspection techniques.

Er-Bakır, Production Planning and Control Intern

June 2024 – July 2024 (Denizli, Türkiye)

- Supported the production planning and scheduling processes in a large-scale copper wire manufacturing facility.
- Assisted in monitoring material flow and capacity utilization to improve efficiency in production lines.
- Contributed to the preparation and review of daily/weekly production reports, analyzing deviations between plan and actual performance.
- Observed and learned about inventory management, demand forecasting, and resource allocation in a high-volume manufacturing environment.
- Collaborated with engineers and supervisors to enhance workflow coordination and production traceability.

Kuzey Balık, Operations and Pre-Accounting Staff

July 2023 – September 2023 (Isparta, Turkey)

- Supply chain management was carried out.
- Delivery notes for the supplied products were arranged, and invoices were issued.
- Pre-accounting of employees' payrolls was done.

SKILLS

Technical Skills

Project Management
Production Planning & Control
Database Management (SQL)
Data Analysis & Reporting (Excel, Minitab)
Quality Management & Standards (AS9100, AS9102)
Operations Research
Technical Drawing (AutoCAD)
Microsoft Office
Phyton
Matlab

Soft Skills

Teamwork & Collaboration
Problem-Solving
Analytical Thinking
Research-Oriented
Continuous Learning
Adaptability
Fast Learning
Effective Communication
Innovative & Disciplined Approach

LANGUAGES

English (Full Proficiency), **Turkish** (Native)

EXTRACURRICULAR ACTIVITIES

- **Judo Athlete (Turkish Judo Federation Individual License)**
- **Hacettepe Automotive Community Active Member**
 - H'OTO Zirve Event
 - Defense Industry Talks Event
